PUBLIC CONTRACT OPPORTUNITY RESEARCH

Example research brief

Commercial irrigation
Rockingham / Perth metro

A demonstration of the output format using one real public notice. This is not a complete market search, a bid recommendation or evidence of work performed for a client.

Source snapshot	11 Nov 2026, 05:11 AM AWST
Assumed profile	An irrigation supply and installation business serving Rockingham; business capability has not been verified.
Search boundary	Illustrative notice from the current sample board. Minimum preparation window: 14 days at the snapshot date.

01 / Public source facts

Reference	T25/26-88
Issuer	City of Rockingham
Public scope	New irrigation supply and installation across multiple council sites; exact sites remain unconfirmed.
Published close	Wednesday 2 December 2026, 2:00 pm AWST
Access status	Public notice reviewed. Full specifications and conditions require Rock Port access; the tender pack was not reviewed.
Contract value	Not stated in the public notice reviewed.

02 / Our first assessment

Potentially relevant to an established local irrigation installer. The notice title suggests installation work rather than routine lawn maintenance. Suitability depends on the sites, system specifications, delivery programme and mandatory conditions in the complete documents.

Assessment, not eligibility: no insurance, licence, briefing, capacity or commercial requirement has been verified. Read the next-page checklist before spending time pricing a response.

DOCUMENT REVIEW AND NEXT ACTION

Turn an alert into a useful decision.

03 / Resolve these gaps first

Sites and systems	Confirm locations, quantities, technical specifications, access and any required site inspections in the tender pack.
Mandatory conditions	Check licences, insurance, experience, briefing attendance and submission requirements. Do not assume any requirement is absent.
Programme and capacity	Identify the work period and milestones, then compare them with actual crew, supplier and travel capacity.
Commercial terms	Review the pricing schedule, contract terms and exclusions with the appropriate business adviser before deciding to bid.
Evaluation and changes	Read the selection criteria and all issued amendments. Use the portal clarification channel stated in the documents.

04 / A practical next step

1. Locate reference T25/26-88 through the official notice and obtain the complete documents using your lawful Rock Port access.
2. Resolve mandatory eligibility, briefing and site requirements before estimating effort or price.
3. Recheck the closing time and amendments on the issuing portal before making a bid decision.

05 / Source and freshness

Official public notice
rockingham.wa.gov.au/your-city/business-and-investment/tenders-and-eois

Public summary rechecked 11 Nov 2026, 05:11 AM AWST. This PDF is a dated snapshot and does not update. The issuing portal and complete documents take priority; confirm deadlines and amendments again before acting.

What a tailored brief adds

The indicative A$99 pilot screens up to three relevant public notices for one agreed trade, area and preparation window. It includes source facts, fit reasoning, unresolved checks, next steps and one factual correction round. Feasibility, final scope, timing, price and payment arrangements are agreed before any order.
